

BADASS BANK and Stryv Bank are the same financial institution. Deposits held at BADASS BANK and Stryv Bank are not separately insured by the F.D.I.C.

FDIC – the Federal Deposit Insurance Corporation – is an independent agency of the US Government, that protects bank depositors against the loss of their insured deposits if an FDIC-insured bank or savings association fails. FDIC insurance is backed by the full faith and credit of the United States government.

The standard FDIC insurance is \$250,000 per depositor, per insured bank, for each ownership category. The FDIC's Electronic Deposit Insurance Estimator can help you determine if you have adequate deposit insurance for your accounts. The FDIC insures deposits only. It does not insure securities, mutual funds, or similar types of investments that banks and thrift institutions may offer.

To learn more about FDIC insurance and how it applies to Badass Bank, start by visiting the FDIC's official website, www.fdic.gov, where you can access detailed information on the types of accounts covered, coverage limits, and the FDIC's role in protecting depositors. The website also includes a "BankFind" tool, allowing you to search for our bank and verify the FDIC insurance status. To search, type "Stryv Bank" in the name field, "Kansas" in the state field, and click "Find." Stryv Bank and BADASS BANK, the internet banking division of Stryv Bank, are the same institution. Thus, BADASS BANK is not listed individually on the FDIC website.
